

## Routes

The Tour of America is a month long cycling race that will commence the Saturday closest to the September 11th and end three weekends later on a Sunday. For the year 2010 the event will begin appropriately on September 4th, 2010 and end on the 26th of September 2010. The event will be 23 days long with 2 days of rest in between. The first day will start from Central Park. The remaining 22 days of races will snake its way through states in our country till we reach one of the many beautiful cities on the West Coast. This would truly be a race across the continent from sea to shining sea. The route taken by the race each year will differ with every single one of the 48 states in the contiguous U.S. being trekked across by the cyclist once every 5 years. All races will be run on local and state roads avoiding any Interstate Highway. This is a "TENTATIVE" route and subject to change upon city approval:
